Dear Sister

After a long silence I thought I would write to you once more hoping the arrival of this note will find you in the best Health and best cheer also Don't think anything bad of me for not writing I love you still the same. Remember me to Celia and Mary E. I know they are mad to me for not writing.

I often wondered what Celia said when she seen my photo tell her I don't forget her yet a day never passes by without I think of my sisters in America I often thought I could like to be there to look after you, take care of yourself and you will soon be able to come home and see me once more, I may go home in a fortnight and I may not go home until Christmas I like living here though I have to work its not so nice having to walk 3 miles before it comes daylight every morn still I enjoy it.
